Sacraments Word Search

- Duplicate the Sacraments Word Search (page 174), making one copy for each small group.
 - Explain that the grid contains at least forty words related to the celebration of sacraments. (The word search is modeled on the game Boggle®.) The letters of the words might be found down, up, across, or diagonal and can change direction within the word, but each letter must touch the letter before, and no letter can be used more than once in one word.
 - Instruct the group to work together as a team searching for the words. Assign a recorder to make a list of all the words found. To count, a word must be related to the sacraments in some way and be at least four letters long.
 - Allow time for the groups to find many of the words. Then tell each group to send their recorder to another table for checking. One point is awarded for each word found, and minus one point for any word listed that is not on the grid. (Be prepared to arbitrate here; the students will have some interesting ways of relating words to the sacraments. Your judgment as to whether a given word counts is final.)
- Option:* Give everyone a copy of the grid to take home and continue searching for the missing words.
